

## DYEING CLASSES!!!

Now that Meg is all healed and her schedule has settled down, she is ready to help us dye more fabric! If you have not taken these classes yet, you must! They are so fun! Meg has a variety of techniques she's going to cover this quarter using thickened dyes!

Come bring a friend and join the fun! On each day, there will be a morning session from 10 am-1 pm and an afternoon session from 1:30-4:30 pm. The morning session will cover a new technique and the afternoon session will just be an open dye opportunity. Class fee does not include the cost of the PFD (Prepared for Dye) fabric or the synthrapol which is used to launder the dyed fabrics. Also, you'll need to bring the plastic bags and containers if you choose to do parfaits, etc.

Fee: \$25.00/session

Dates: Saturdays, April 24, May 22 & June 26

## MAKE A PILLOWCASE AND MAKE A DIFFERENCE

As many of you know, American Patchwork & Quilting is sponsoring the One Million Pillowcase Challenge in 2010. Their goal is to distribute 1,000,000 pillowcases to various charities around the world.

**WE NEED YOUR HELP TO DO THIS!** The Glass Thimble will continue to collect pillowcases throughout the year. Each shop has been asked to pick their own charity to send the pillowcases from their shop. We have decided to ship half of our to Ohio troops currently serving in Afghanistan. The other half of our pillowcases will be donated to Nationwide Children's Hospital (along with fleece blankets that my girl scout troop will be donating).

To help you, you can stop in anytime and pick up a free pillowcase pattern. Free patterns are also available for download at [www.AllPeopleQuilt.com](http://www.AllPeopleQuilt.com).

We will also be hosting several Pillowcase Sew-ins. Our first one will be on Wednesday, June 30th, from 10 am-5 pm. Stop by and make a difference! You can stay for as little or as long as you like!

As an added incentive, you will receive one free fat eighth for every two pillowcases you donate.

Thank you for help in this effort!
